

A photograph of the Clyde Dam and Hydro Electric Power Station. The dam is a large concrete structure with four spillways, and water is cascading down them. The background shows a mountain range under a blue sky with some clouds. The foreground shows the turbulent water of the power station's outlet.

Clyde Power Station Open Day

Sunday - 23 April 2017 - Old Fruitgrowers Road, Clyde - 10:00am – 3:00pm

Bring the family along to a once in a lifetime opportunity to tour around the mighty Clyde Dam and Hydro Electric Power Station, New Zealand's largest concrete dam. The event marks 25 years since the Dam began filling to create Lake Dunstan. There will be self-guided tours and something for the whole family.
